## JOINT REPORT OF THE VICE PRESIDENT AND THE DIRECTOR

July 1, 1948

HIS EXCELLENCY, EARL K. LONG

Governor of the State of Louisiana  
Ex-Officio President  
Board of Administrators  
Charity Hospital of Louisiana  
New Orleans, Louisiana

My Dear Governor Long:

The Vice President of the Board of Administrators and the Director of the Charity Hospital of Louisiana at New Orleans submit the following report of the activities of the Hospital covering the period from July 1, 1947 to June 30, 1948, inclusive.

**Board of Administrators** The following individuals continued their services as Members of the Board of Administrators during the past year:

Mr. Louis G. Riecke, Vice President  
Mr. Charles A. Farwell  
Mr. Charles P. Fenner, Jr.  
Dr. A. N. Houston  
Mr. William J. Kross  
Mr. Malcolm L. Monroe  
Dr. N. J. Tessitore  
Mr. Fred S. Weis  
Mr. Fred W. Matthews was re-elected Secretary-Treasurer of the Hospital

The Board of Administrators, at its annual meeting, re-elected Mr. Louis G. Riecke as Vice President. Mr. Riecke announced the appointment of the following standing committees:

### FINANCE COMMITTEE:

Mr. Fred S. Weis, Chairman  
Mr. William J. Kross  
Mr. Charles P. Fenner

### MEDICAL COMMITTEE:

Mr. Charles A. Farwell, Chairman  
Dr. A. N. Houston  
Dr. N. J. Tessitore  
Mr. William J. Kross

### HOUSE COMMITTEE:

Mr. Malcolm L. Monroe, Chairman  
Dr. A. N. Houston  
Mr. Fred S. Weis

### Administrative Changes

Drs. J. A. Magne and E. P. Breaux served throughout the year as Assistant Clinical Directors of the Hospital.

Dr. Breaux submitted his resignation to become effective July 1, 1948, and the Board of Administrators approved the appointment of Dr. C. C. Craighead as Assistant Clinical Director.

Dr. O. P. Daly continued to serve as Director of the Hospital until April 30, 1948, at which time he submitted his resignation.

Dr. Robert Bernhard was appointed Director effective May 12, 1948. During the interim (May 1st-May 11th) Dr. E. P. Breaux served as Acting Director of the Hospital.

**Main Building**—This building contains a total of 2657 beds devoted to patients' care—divided as follows:

Hospital  
Buildings

Medicine  
Surgery  
Pediatrics  
Premature Infant Station  
Gynecology  
Orthopedics  
Urology  
Neurology  
Eye, Ear, Nose and Throat  
Dermatology  
Obstetrics  
Nurseries  
Radium Therapy  
Dental Surgery  
Unassigned Beds

The other departments are as follows:

Operating Rooms (including two surgical amphitheaters)  
Delivery Rooms (including cesarean section rooms)  
Pathology Department  
Anesthesia Department  
Diagnostic and Therapeutic X-ray Departments  
Cardiology Department  
Physical Therapy  
Medical Records Library  
Auditorium  
Social Service Department  
Admitting and Discharge Units  
Accident Rooms  
Admitting Rooms  
Out-Patient Department—operating the following clinics:

Surgery  
Plastic Surgery  
Vascular Disease  
Tumor  
Fractures  
Orthopedics  
Plaster Room  
Obstetrics  
Post-Partum  
Gynecology  
Urology  
Special Therapy  
Obs. Special Therapy  
Eye  
Eye (Refractions)  
Ear, Nose and Throat  
Dentistry—including dental surgery  
Dentistry (House)

Medicine  
Metabolic  
Endocrine  
Tropical Diseases  
Cardiac  
Neuro-Psychiatry  
Pediatrics and Immunization  
Infant feeding and Immunization  
Dermatology  
Allergy  
Tuberculosis  
Clinic Cystoscopy  
Pasteur  
Non-sectarian Chapel  
Dietary Department (with dining rooms for doctors,  
nurses and employees)  
Visitors' Food Service for White and Colored  
Bakery Shop  
Linen and Sewing Rooms  
Various Store Rooms  
Electroencephalographic Department  
Post Office  
Hospital Library

Business Offices and Administrative Offices, covering  
every phase of the administration of the hospital.  
The 13th, 14th, 15th, 16th, 18th and 18th floors of the  
building are the living quarters of the intern and  
resident physicians attached to the hospital. The  
19th floor is devoted to recreation rooms for doc-  
tors assigned to the institution.

Because of the large increase in the student nurse body,  
the 6th and 11th floors of the Main Building are set  
aside as dormitories for use by the student nurses  
assigned to this hospital and affiliating nurses.  
These floors were vacant because of the hospital's  
inability to obtain sufficient graduate nurses to  
staff these quarters and because of lack of suffi-  
cient funds to operate them.

During the year an addition to the Colored Waiting  
Room was constructed on the corner of LaSalle and Grav-  
ier Streets to alleviate the congestion which existed in  
that portion of the hospital.

Insofar as we are able to determine, settlement of  
this Main Building has reached the point where it no  
longer presents a serious problem to the Board of Admin-  
istrators.

**Richard Milliken Building**—This building, which was  
erected by Mrs. Deborah Allen Milliken and donated to  
the hospital for the care of children, is the only building  
on the hospital grounds which is not in use.

Hospital authorities have contemplated the possibility  
of renovating this building for use as a crippled children's  
hospital and for the care of poliomyelitis cases; however,  
these plans are being held in abeyance at the present time  
partly because of lack of funds and partly because of  
negotiations under way with the Board of Supervisors of  
Louisiana State University who desires use of the ground

now occupied by this building to erect an addition to the L.S.U. Medical Center.

The Hospital Printing Shop is set up in the basement of the Milliken Building. By means of this shop, it is possible for the hospital to print the forms used throughout the institution, thereby accomplishing a great saving to the hospital.

**Lapeyre-Miltenberger Building**—This building, which was donated to the hospital for the care of convalescent patients, is being used for this purpose.

This building contains 104 beds devoted to the care of patients who are convalescing from acute illnesses; in addition, there are 16 beds assigned to the Tulane Medical School for a special metabolic study.

The upper two floors of the building have been set aside for use as living quarters for graduate nurses assigned to the hospital. The lower floor of the building houses the Physical Therapy Department and is completely equipped for the care of patients who are in need of physical therapy. The basement of this building contains store rooms and an occupational therapy room for use by convalescent patients. The work done by these patients assists in their recovery and, at the same time, helps to provide them with a means of earning a livelihood when period of convalescence is over.

**Delgado Building**—This building, which was donated to the hospital for the care of surgical diseases, is under lease to the Louisiana State Board of Health as a Venereal Disease Control Hospital. During the past year, 3,632 cases were treated for venereal diseases in this unit.

**Old Female Medical Building**—Two and one-half stories of this building are occupied by poliomyelitis cases. The two upper floors are for the care of bed patients, and one-half of the lower floor is devoted to a physical therapy department and recreation room for convalescent polio cases. The other half of the lower floor is set up as a Dietetic Laboratory for use by student dietitians in the Charity Hospital School of Dietetics, which is an approved school.

**Colored Tuberculosis Building**—The lower floor of this building is occupied by the X-ray Department for colored tuberculosis cases, by the lung station, devoted to the study of chest conditions, and occupied by the out-patient department and pneumotherapy department. The upper floors of this building are set aside for the care of colored tuberculosis cases.

On the 4th floor are 3 large recreational rooms. Through the efforts of Miss Lavelle Wallace, Recreational Worker, these recreational facilities and a library were started for tubercular patients.

**Dibert Memorial Building**—This entire building was donated to the hospital by Mrs. Eve Christine Dibert for the care of acute, surgical tuberculosis cases, broadly interpreted as meaning the care of cases of tuberculosis which are amenable to treatment, and the entire building is devoted to the care of these patients.

Every effort is made to keep all beds devoted to tuberculosis in an active condition. Chronic, advanced cases

occupying beds should not be cared for in facilities such as Charity Hospital has, because the beds in use are limited and the need for beds for the care and treatment of cases which can be cured is so great that it is wrong to deprive these individuals of a chance to get well.

Plans for extensive renovations in this building have been completed and the work is now under way.

**Musser-Gordon Memorial Hospital**—Realizing the great need for facilities for the chronic, advanced cases of tuberculosis, a small unit in the old LaGarde Hospital on the Lakefront was opened on January 17, 1948, containing twenty-four beds for chronic tuberculosis cases.

Operation of this unit was financed by funds secured through public subscription. The Board of Administrators gratefully acknowledges the untiring efforts of the following public spirited citizens and organizations toward the establishment of this badly needed facility: Orleans Anti-Tuberculosis League, Mr. Charles G. Moseley, President; Citizens Tuberculosis Committee, Dr. H. Ashton Thomas, Chairman, in co-operation with Mayor deLesseps S. Morrison; United Tuberculosis Control Committee, Dr. Spencer B. McNair, Chairman, Dr. Julius Wilson, Mrs. Charles F. Buck; and the Young Men's Business Club, whose President at that time was Mr. Victor Schiro.

Plans are being considered for the expansion of this unit.

**Student Nurses Home**—This building is dedicated exclusively to the student nurses in the Charity Hospital School of Nursing.

Because of the great growth of this School, the building is no longer large enough to house the entire student body, which now numbers approximately 600; therefore, two floors in the Main Building have been requisitioned for use as dormitory space for student nurses who are learning their profession in this institution. Unquestionably, the hospital will be forced, in the near future, to face the necessity of obtaining additional room for student nurses.

We must make every effort to maintain and train as many student nurses as possible, because during the present shortage of graduate nurses, it would be absolutely impossible to maintain the services in this institution without the assistance and services rendered by these student nurses.

**Graduate Nurses Home and Old Ambulance House**—These two buildings, situated on Tulane Avenue across the street from the Main Building of the Hospital, have served throughout the year as living quarters for graduate nurses and female doctors who are on duty in this hospital.

Female doctors are now occupying quarters in the Old Ambulance House, whereas, formerly their quarters were in the Garage Building on the second floor.

**Sisters' Home**—This building, which is on the corner of Claiborne Avenue and Gravier Street, is occupied exclusively by the Sisters of Charity, who have been connected with this hospital since 1834, and contains their living quarters and chapel.

**Hospital Laundry**—All of the hospital's laundry is done in this plant, which is in use constantly throughout the year. During the past year, this department laundered 4,598,190 pounds or 9,190,222 pieces of linen.

Since a great deal of the mechanical equipment in this laundry is badly worn, negotiations are now under way to secure surplus laundry equipment from the old LaGarde Hospital.

**Hospital Garage**—The lower floor of this building is set up as a garage and ambulance house with quarters for ambulance drivers who are on duty.

Half of the upper floor is used as living quarters for doctors who are on the staff of this institution. The remaining half of the upper floor is occupied by the automotive work shop and is used for repairing and maintaining the automotive equipment owned by this institution.

**Maintenance Building**—This is an old building which is located in the rear of the power plant and is considered to be a fire hazard in addition to being impossible to repair. This is to be torn down in the future and replaced with a modern building.

**New Maintenance and Future Garage Building**—Postwar plans are being realized in that the erection is now going on of the Maintenance and future Garage Building at the corner of LaSalle and Perdido Streets. This building is one story with mezzanine and occupies the entire State property in the back of the existing Animal House of the Pathology Department.

**Warehouse**—This building is much too small for the demands made upon it, and attention is called to the necessity of expanding it. Recently the platform for this warehouse was enlarged. Postwar plans contemplate enlarging the warehouse.

**Main Powerhouse**—This building which contains the power plant, ice plant, air-conditioning system, and other machinery necessary for the operation of the hospital has rendered excellent service throughout the year.

Recently the stack of the powerhouse was extensively repaired because of numerous hair-line cracks.

**Automotive Equipment**—During the past year, no automotive equipment was purchased by this hospital, although some of the equipment within the hospital is old and badly worn and will have to be replaced in the near future.

**Department of Medical and Surgical Care**—The professional care of all patients assigned to this institution is the responsibility of this department. During the past year, there was a total of 748,372 patient days, of which 58,315 were newborn patient days. This figure represents a total of 53,587 admissions during the year. There was a total of 16,449 operations performed and 9,211 babies were delivered. 187,225 patients were seen in the Admitting Room and 80,180 patients were treated in the Accident Room. There was a total of 414,796 patient visits in the Out-Patient Department.

Patients'  
Services

The number of patients seen from the various parishes in the State will be found elsewhere in this report.

The average cost per day of patients treated in the Hospital during the past year was \$6.55. The cost for patient visits in the Clinics was \$.86.

This tremendous amount of work was accomplished through the magnificent efforts of the physicians on the Staff of this hospital. The Staff is composed of Visiting Physicians, Resident Physicians and Interns. There are four Units active in the Hospital, each complete in itself. These are the Tulane Unit, composed of physicians and surgeons affiliated with the School of Medicine of Tulane University to whose care 40% of the patients admitted to the hospital is entrusted; the L.S.U. Unit, composed of physicians and surgeons affiliated with the School of Medicine of the Louisiana State University, also caring for 40% of the patients admitted to the hospital; and the Independent Unit, staffed by physicians and surgeons not affiliated with either medical school, and caring for 20% of the patients admitted to the hospital. The divisions of patients among these three Units is carried out throughout the institution and patients are assigned to these three Units in the above proportions. There is, in addition, a Dental Unit, composed of dentists and oral surgeons affiliated with Loyola University School of Dentistry. This Unit has its own special resident and intern staff. All dental cases in the institution are cared for by this Unit.

The Resident Staff of this Institution is composed of doctors pursuing study in the various specialties of medicine and surgery, and numbered 197 during the past year. For their entire tenure of service in this institution, these doctors are assigned to one of the three major units in a particular specialty field of medicine or surgery; in other words, assigned to Tulane Surgery, or L.S.U. Orthopedics, or Independent Urology.

The Intern Staff is composed of recent graduates of medical schools, all of whom are licensed physicians, and numbered 114 during the past year. Their services extend for a period of one year, during which time they are assigned for brief periods to the various medical and surgical specialties; they serve a rotating internship. Insofar as has been possible, during the past year these doctors have been assigned to one or another of the three major units.

The training of intern and resident physicians is a direct responsibility of the Visiting Staff of this hospital, and is carried out in such a manner as to obtain the approval of the various accrediting agencies and specialty boards. Charity Hospital resident physicians who complete prescribed periods of training in the various specialties are all eligible for approval and certification by the various specialty boards.

The Director of the hospital and his Assistants are responsible for the over-all supervision of patient care. It is their duty to see that all patients admitted to this institution are adequately and properly cared for. They are also charged with control of the interns and resident phy-

sicians and it is their responsibility to supervise the training program for these young doctors; it is likewise their responsibility to formulate and issue rules governing the conduct of the institution and care of patients within the wards, clinics, accident rooms, and admitting rooms of the hospital, and whenever necessary, to discipline members of the resident and intern staff.

Without the unhesitating and unstinting services of the 565 physicians and surgeons of the Visiting Staff, whose time and knowledge and care are lavishly given without cost to the patients or to the State, Charity Hospital could never function. These doctors number among themselves, the leading physicians and most prominent teachers in the medical profession in the State. They are subject to call at any time of the day or night, and answer cheerfully and promptly these calls without exception. In addition, these same physicians and surgeons train our young interns and residents, thereby adding immensely to the future health and medical care of the State of Louisiana. Charity Hospital acknowledges a debt of gratitude to the members of its Visiting Staff.

Attention is called to the list of scientific articles written by members of our resident and visiting staffs. (See PUBLICATIONS OF CHARITY HOSPITAL STAFF, July 1, 1947-June 30, 1948, following Report of Vice President and Director.) This gives some idea of the scope of scientific work done in this institution in addition to patient care.

**Psychiatric Unit**—This unit of 88 beds, located on the third and fourth floors of the Main Building, has rendered excellent service throughout the year.

The Unit is devoted to acute mental cases only, and these cases are not permitted to remain longer than six weeks. Many of these cases are able to return to their homes upon completion of treatment; others have to be referred to mental hospitals. This unit is not set up and organized for long-term care of mental or neurotic patients. Authorities in this hospital do not believe that a long-term mental hospital should exist within this institution; however, we realize that the size of this unit is not sufficient to care for the calls made upon it, and, at some future time, plans must be made to expand this unit and to improve its facilities.

**Premature Infants Unit**—The mortality rate in this group of patients is always high, but by devoting special care to these infants and by making available facilities for their proper care, such as incubators, sterile technique, correct dietary procedures, et cetera, this hospital has been able to witness a steadily declining mortality rate for this group of patients. In 1937 the mortality rate for premature infants was 85% and now it is approximately 25%.

This hospital, after entering into negotiations with the Children's Bureau through its affiliation with the Louisiana State Board of Health, has recently been able to open a premature infants station which is without doubt the largest in the country. Recent renovations, including air-conditioning and carefully planned physical construction of units, facilitate better care of these infants and provide

a most attractive division. During this past year, the average number of premature infants was 75 per day. A teaching program is in progress for graduate nurses who are interested in this field of work.

The cost of operating this unit will be met in part by a Federal grant.

In conjunction with the Premature Infant Unit, a Formula Room has been installed on the 10th Floor which is capable of preparing for all babies in the hospital formulas meeting the most rigid standards.

**X-Ray Department**—This department is divided into two sections, the Diagnostic Division, under the supervision of Dr. Leon Menville, and the Therapeutic Division, including applications of radium, under the supervision of Dr. Manuel Garcia.

The X-Ray Department offers diagnostic services throughout the entire institution, including units in the Accident Rooms, Clinics, Tuberculosis Buildings, and the Infectious and Contagious Unit, as well as the main diagnostic division, which is located in the Main Building of the Hospital. During the past year, 90,318 patients were examined and 158,431 films were processed. Fluoscopies numbered 7,044.

The X-Ray Department conducts a School for X-Ray Technicians. During the past year, 18 new students were admitted and 12 completed their training. This is an approved school.

In the Therapeutic Division 18,183 cases were treated, and in the Radium Division 466 patients were treated.

**Pathology Department**—Under the supervision of Dr. Emma S. Moss, this department continues to be one of the most important departments in this institution.

Some idea of the scope of work done in this department can be realized by the fact that approximately 453,560 laboratory tests were made during the past year and, in addition, over 10,378 surgical specimens were received, sectioned, and examined. During that same time, there were 1,162 autopsies held.

The Pasteur Institute, which is under the supervision of the Pathology Department, received 2,186 patients. The Pasteur Institute in Charity Hospital should be closed and operation of a Rabies Clinic taken over by either the State or City Health Department. Control and prophylaxis of rabies is a public health problem and not a hospital problem. Expenditure of hospital funds for such a purpose is improper.

The Pathology Department in this institution conducts a School of Medical Technology for the teaching of medical laboratory technicians. During the past year, 25 students were admitted and 15 completed their training in this school, which is approved.

**Out-Patient Clinics**—During the past year, there were 414,796 patient-visits in the White and Colored Clinics of this hospital.

This department and the Admitting Rooms of the hospital are placed under the supervision of Sister Ignatia insofar as patients, employees, and nurses are concerned.

The physicians practicing in the clinics and the Admitting Room physicians are placed under the direct supervision of Dr. J. A. Magne, Assistant Clinical Director.

**Operating Rooms**—On the 12th Floor there are 16 active general surgery rooms, in addition to eye, ear, nose and throat, cystoscopic, bronchoscopic, and plaster rooms, which are 13 in number.

**Dietary Department**—The Dietary Department, under the supervision of Sister Euphemia, has served efficiently throughout the year. There were 3,559,335 meals served by this department; 56,461 infant formulas were prepared and served; and 572,456 special diets were prepared and served during the past year.

The School of Dietetics, conducted in the hospital, is under the supervision of the Dietary Department. This is an approved school, and during the past year, 13 students were accepted and 13 graduated.

The Dietary Department also operates a Nutrition Clinic for instruction of patients in the Out-Patient Department, and during the past year, 25,440 patients were contacted and instructed in the proper diets which they should follow.

The Dietary Department has worked very closely with hospital authorities and with the Children's Bureau in working out plans for the development of the Formula Room in connection with the Premature Infants Unit which recently opened.

**Research Department**—Hospital authorities, for years, have been aware of the vast amount of clinical material available in this institution and of the fact that insufficient use of this material from a scientific standpoint has taken place.

With this idea in view, the Board of Administrators discussed with individuals interested in scientific advancement the possibility of setting up in this hospital or in connection with this hospital a research department; the expense of operating this department to be divorced entirely from the appropriation made to the hospital by the State Legislature.

As a step towards the development of this department, the Board of Administrators, from funds entrusted to their care, ordered an electron microscope at a cost of more than \$20,000.00 and authorized preparation of quarters for setting up this piece of ultra scientific equipment. This equipment has been received, set up and has been placed under the supervision of Dr. Robert T. Nieset.

**Nurses**—The nursing problem continues to be the most serious individual problem facing the operation not only of this hospital but of all hospitals.

Charity Hospital has endeavored to meet this situation by making available living quarters for use by the graduate nurses assigned to the hospital; by paying salaries to the extent of our ability to nurses employed by the hospital; and by enlarging the Charity Hospital School of Nursing. By means of intensive recruitment work, we have been able to maintain an acceptable number of under-graduate

student nurses, without whose assistance, it would have been impossible to operate this hospital.

During the past year, 207 nurses were accepted as students, 96 were accepted from other schools as affiliating students; 85 nurses were accepted for special training; and 101 nurses were graduated. In addition to the above, the hospital is now operating a School for the training of Nurses' Aides.

**Anesthesia-Gas Therapy-Blood Bank**—These departments are under the efficient supervision of Dr. John Adriani.

The Department of Anesthesia is responsible for training doctors in the specialty of Anesthesia and is also responsible for training nurses as nurse-anesthetists. The graduates of these two departments are fully qualified for their respective board requirements.

During the year, 52 graduate nurses and 5 resident physicians completed courses in Anesthesiology.

#### Acknowledgments

The **Volunteer Workers**, under the able guidance of Mrs. Polly Amis Spaar, have been rendering most valuable services to this institution since July of 1946 when the Volunteer Program was inaugurated.

The local chapter of the **American Red Cross**, whose Chairman is Mrs. John M. Parker, Jr., has continued to make most needed surgical dressings for this institution.

Another group, the **Charity Hospital Guild**, under the able supervision of Miss Nellie Boudreaux, has aided tremendously in supplying surgical dressings for our patients.

With Sister Zita as Directress, the **Sisters of Charity of St. Vincent de Paul** have performed excellent services in this hospital in numerous capacities. Too much credit cannot be given them.

The Vice President and the Director of the Hospital wish to acknowledge the very valuable services of the **Members of the Board of Administrators** of this hospital.

The **Committees** appointed by the Vice President have functioned efficiently throughout the year. These committee members have zealously attended meetings and through their conscientious work have given the benefit of their counsel and advice to the administrators of this hospital.

Appreciation is expressed to the **Members of the Visiting Staff**, the **Resident Physicians**, and **Interns**, who, through their constant devotion to duty and their willingness to answer calls made upon them, have afforded the poor of our State the medical attention they so righteously deserve.

The **Department Heads** and all personnel are to be complimented for their services which were rendered so efficiently during the past year.

Respectfully submitted,

L. G. RIECKE,  
Vice-President,  
Board of Administrators

ROBERT BERNHARD, M.D.  
Director, Charity Hospital of  
Louisiana at New Orleans

## CHARITY HOSPITAL OF LOUISIANA AT NEW ORLEANS—13

August 6, 1948

Board of Administrators  
Dr. Robert Bernhard, Director  
Charity Hospital  
New Orleans, Louisiana

Dear Sirs:

The Accounting Department herewith presents the Annual report of the Financial condition of the Charity Hospital of Louisiana at New Orleans for the fiscal year ending June 30, 1948.

The report is composed of the following Exhibit and Schedules:

Exhibit	I	Balance Sheet
Schedule	I-A	Statement of Income and Expenditures
Schedule	I-B	Surplus and Deficit Account
Schedule	I-C	Visitors Food Service Operations
Schedule	I-E	Statement of Allotment Balances
Schedule	I-F	Hospital Equipment and Furnishings
Schedule	I-G	Hospital Buildings
Schedule	I-H	Capital Outlays
Schedule	I-J	Unexpired Insurance Premiums
Schedule	II	Premature Infant Care Program
Schedule	II-A	Musser-Gordon Memorial Hospital—Statement of Allotment Balances
Schedule	II-B	Musser-Gordon Memorial Hospital—Statement of Operating Expenses
Schedule	II-C	Musser-Gordon Memorial Hospital—Statement of Cash Position and Patient-Day Costs
Schedule	III	Statement of Miscellaneous Income
Schedule	IV	Summary-Operating Expenses
Schedule	VI-B	Comparative Statement of Monthly Cost of Operations
Schedule	VI-B-I	Comparative Statement of Departmental Cost of Operation—Fiscal Years 1946-47 and 1947-48
Schedule	VI-D	Number of Employees on Payroll

Respectfully submitted,

L. A. MILLET,

Chief Accountant

LAM/elf

---

Fiscal Year July 1, 1947 to June 30, 1948

At the beginning of the fiscal year July 1, 1947, a Work Program was prepared and submitted to the State Budget Officer. The following tabulation reflects the original estimate of Means of Financing as compared with actual funds received.

	Estimated July 1, 1947	Funds Received	Increase
State Appropriation.....	\$4,506,900.00	\$4,506,900.00	.....
State Board of Liquidation.....	.....	75,000.00	\$ 75,000.00
Bond Liquidation Fund.....	279,670.00	279,670.00	.....
Legislative Appropriation under Act 3 of 1948.....	.....	161,930.00	161,930.00
Federal Grants:			
V. D. Project.....	50,000.00	57,406.80	7,406.80
Maintenance of G. I. Doctors.....	40,000.00	54,836.37	14,836.37
Tulane Metabolism Project.....	.....	2,667.84	2,667.84
	<hr/> \$4,876,570.00	<hr/> \$5,138,411.01	<hr/> \$261,841.01

Cost of Operations for the year ended June 30, 1948, compared with the previous fiscal year increased \$471,131.22 accounted to as follows:

	Fiscal Year		Percent Increase
	1947-1948	1946-1947	
Salaries.....	\$3,128,876.55	\$2,810,225.51	11.34 %
Food.....	764,575.60	710,592.82	7.60 %
Drugs and Surgical Supplies.....	586,568.65	505,083.96	16.13 %
Other Operating Expenses.....	462,154.49	445,273.68	3.79 %
Repair and Maintenance Supplies.....	114,837.83	114,705.93	.011%
	<hr/> \$5,057,013.12	<hr/> \$4,585,881.90	<hr/> \$471,131.22
			10.27%

	Fiscal Year		Decrease
	1947-1948	1946-1947	
In-Patient Days.....	707,221	783,995	..... 76,774
Average Cost per Patient-Day.....	\$6.55	\$5.39	\$1.16 .....
Out-Patient Visits.....	492,700	435,082	57,618 .....
Average Cost per Patient-Visit.....	\$0.86	\$0.83	..... \$0.03

## REPORT OF ACCOUNTING DEPARTMENT

65

## INVENTORY—MATERIALS AND SUPPLIES—\$163,039.71

Compared with the fiscal year ended June 30, 1947, Inventory of Operating Materials and Supplies decreased \$9,386.13 accounted to as follows:

	Fiscal Year Ending		Increase	Decrease
	June 30, 1948	June 30, 1947		
Drugs.....	\$ 33,037.22	\$ 30,672.23	\$2,364.99	.....
Food.....	8,896.50	9,618.72	.....	\$ 722.22
Household Supplies.....	32,848.08	33,889.35	.....	1,041.27
Office and Multigraph.....	9,111.32	9,804.64	.....	693.32
Maintenance Materials and Supplies.....	52,236.09	47,416.76	4,819.33	.....
Surgical Supplies.....	26,910.50	41,024.14	.....	14,113.64
	<b>\$163,039.71</b>	<b>\$172,425.84</b>	<b>\$7,184.32</b>	<b>\$16,570.45</b>

## INSURANCE PREMIUM

Insurance Premiums paid during the fiscal year amounted to \$28,445.41, compared with \$33,082.25 paid the previous year, a decrease of \$4,636.84.

## PATIENTS ACCOUNTS RECEIVABLE—\$125,869.26

During the fiscal year, billings against ineligible patients amounted to \$49,822.40, compared with billings amounting to \$88,947.93 during the previous fiscal year, a decrease of \$39,125.53, or 43.82%.

Total collections during the fiscal year amounted to \$30,851.87 compared with \$47,420.54 the previous fiscal year, a decrease of \$16,568.67, or 34.73%.

## HOSPITAL REVENUE—PAYABLE TO STATE GENERAL FUND

During the fiscal year, collections of Patients Accounts, Fees, Licenses, etc., reverting to the State General Fund amounted to \$113,510.49, compared with \$122,847.00 the previous year, a decrease of \$9,336.51.

**CHARITY HOSPITAL OF LOUISIANA AT NEW ORLEANS**  
**Personnel Department**

August 28, 1948

Doctor Robert Bernhard, Director  
Charity Hospital of Louisiana  
New Orleans, Louisiana

Dear Doctor Bernhard:

This report covers the period from July 1, 1947 through June 30, 1948. During this period the following personnel transactions were made:

Employments .....	2,402	Resignations .....	1,403
Discharges .....	861	Lay Offs .....	27

In many instances vacancies were filled by promotions and employments to lower pay positions doubling the necessary record work in the Personnel Department.

The Employees' Retirement System became effective on July 1, 1947. Employees were required to elect whether or not they would participate. Considerable clerical work in connection with this plan devolved upon the Personnel Department.

The preparatory work for the adoption of a new Pay Plan which became effective on July 1, 1948 was completed during this fiscal year. Not only were there many pay changes to process, but also reallocations by the Civil Service Department of several hundred positions were effected. As a result, many old employees found themselves on the same pay basis as new ones. The latter having received increases which in some instances were of comparatively large amounts. Not only were these older employees disgruntled but their Department Heads expressed much dissatisfaction. These complaints were referred singly and in detail to the Personnel Office.

Even after adopting the revised Civil Service Pay Plan we find that the majority of our employees are paid rates which do not compare favorably with wages paid in private industry, and in many cases do not compare with rates paid by other State Agencies. Consequently, we are forced to accept employees for service with this Institution who do not measure up to the desired qualifications necessary to perform their duties efficiently.

The discrepancies in pay rates brought about through changes of duties, although technically justified, have resulted, in many cases, in a dangerous lowering of morale. The attendant personnel problems involved in meeting these difficulties and adjusting the problems in a manner satisfactory to all concerned, coupled with the tremendously increased activity necessary to meet our terrific labor turnover, has kept this Department operating at an accelerated pace to accomplish routine transactions without any opportunity for instituting new personnel programs.

While the problems which have confronted this Department during the past few months have been manifold, nevertheless, I do sincerely believe that our apparent success in overcoming most of these difficulties has resulted for the most part from the splendid cooperation received by all operating divisions of this Institution and certainly from the cooperation, confidence, and understanding of its Director.

Respectfully submitted,

ALMENA M. HOSEA,  
Acting Personnel Director

Dr. Robert Bernhard, Director  
Charity Hospital of Louisiana  
New Orleans 13, Louisiana

Dear Doctor Bernhard:

Since detailed reports are being submitted by the various departments comprising the Sisters' Divisions, this annual report will be brief and general.

The departments under the direction of the Sisters have struggled through the past year with inadequate help and dissatisfied employees due to salaries incommensurate with those paid by Governmental agencies and other hospitals in the New Orleans area. However, we were rewarded at the close of the fiscal year with the good news that the minimum rate of pay for our workers was to be increased, which immediately resulted in improved morale and improved service.

Nursing Service was not up to standards due to the continued shortage of graduate nurses in the Department. While there was a gain in the number of graduate nurses, our quota was not met, and there was a decrease in the number of student nurses. The Nursing Service Department is to be commended for its effort to maintain the high standards of nursing service despite the inadequate staff and the ever increasing patient load. The announcement at the close of the fiscal year of an increase in the minimum rate of pay for nurses and subsidiary workers brought back some of our nurses who had previously left us for more lucrative positions, and gave to our subsidiary workers a more livable wage and an improvement in morale.

The Dietary Department is to be commended for maintaining the high standards of food service on its limited budget despite the ever-increasing food prices. The School for Dietitians has made notable progress in numbers and in the type of teaching and experience offered. We are grateful to the Board of Administrators for the stipend granted the Student Dietitians during the year which has resulted in more satisfactory recruitment.

The Out-Patient Department has had to cope with large numbers and limited space. We are grateful for the construction of the shelter for colored patients, which will relieve some of the congestion in this Department.

We are grateful to those who have helped us to carry on the work of the Sisters' Divisions during the past year. To the Members of the Board of Administrators and to the Administrative Staff of the Hospital, we express our appreciation for their sympathetic and continued efforts to help us cope with our many problems.

Respectfully submitted,

SISTER ZITA,  
Director, Sisters' Divisions

To the Board of Administrators and Doctor Bernhard, Director,  
Charity Hospital of Louisiana at New Orleans.

Gentlemen:

We herewith submit the report of the Nursing Department for the fiscal year ending June 30, 1948. Because work in the Nursing Department is divided into nursing service to patients and nursing education, we will report on these two divisions separately.

### NURSING SERVICE DIVISION

In reviewing last year's report, which presented severe post-war conditions, it is possible to report this year that the nursing service picture has begun to change. While the nursing staff is still very inadequate, there can be noted an increase in the number of graduate nurses employed in the hospital. Last year we reported a graduate nurse staff of 257, and on June 30 of this year, the number employed is 317.

Changes in the pay-plan in December brought the beginning salary for general duty nurses to \$180.00 monthly, and during a few months there was a gain in the number of employments. Lately, the number of resignations has again exceeded the employments.

Nurse aides have been used throughout the year and the training program for this group has likewise continued. At present 54 nurse aides are employed in the hospital.

#### Inservice Training Program for Supervisory Staff

For a long time it has been recognized that our supervisory program needed strengthening. Practically all nurses appointed to supervisory positions come up the ranks and are deficient in formal preparation for the responsibilities they assume. A faculty member was assigned this year to devote part of her time to in-service training, which is training on the job, for this group.

#### Dibert Tuberculosis Unit

We reported last year on the critical situation in the Dibert Tuberculosis Building where the number of graduate nurses was very inadequate. This condition still prevails.

With the assistance of a tuberculosis nursing consultant of the United States Public Health Service, who was loaned to make a survey and assist in initiating changes in the nursing service in this building, nurse aide duties were defined, and a number of these workers are now giving service in the Unit. The report of Miss Agnes Bowe, who was the consultant loaned for the survey, has been submitted to the hospital director and contains many recommendations for changes in the building. Up to this time, little has been done to implement this report.

### SCHOOL OF NURSING

#### Review of Aim and Objectives of the School

The aim and objectives of the school were reviewed this year and some revisions were made. Following is the final form in which the purposes of the school were written and distributed.

**Aim**

The School of Nursing aims to promote the greatest possible development of the student as an individual by maintaining an educational program and environment conducive to the promotion of personal integrity, social adjustability and acceptability, professional attainment, and mental as well as physical well-being.

**Objectives**

1. To provide the student with the basic professional education necessary to the promotion of health, and to the care of the whole patient in the hospital, in the home, and in the community.
2. To assist the individual nurse to develop characteristics and attitudes of a moral, cultural, and social nature that will stimulate her to make her maximum contribution to society and to the nursing profession.
3. To help the student develop an appreciation of the importance of conserving her own health, and to assist her to understand and meet her health needs in order that she may achieve optimum mental, emotional, and physical well-being.
4. To provide a three-year hospital nursing course including experience in the major clinical services and their specialties, which on completion merits the hospital diploma and will be acceptable for credit toward a degree in nursing by universities or colleges conducting work for graduate nurses.
5. To provide a combined five-year collegiate course in nursing consisting of two years of college work followed by the three-year hospital nursing course leading to the degree of bachelor of science in nursing and the diploma in nursing.

These purposes indicate the type of program being conducted by the school. Emphasis on the individual student has been the goal of the guidance program. The preparation of our nurses for preventive nursing has been limited because we cannot take students from the hospital where they are needed so badly to give them experience in the outpatient department and in the community, where preventive nursing principles can so well be integrated.

**Statistics**

The school of nursing continues to be very large due to the demands on it for nursing service. A class of 92 students was admitted in November, 1947, and another of 108 students in June, 1948. Recruitment in point of numbers has been high, but the fact that many students drop out because of failures in classwork indicates that applicants are not well screened. The withdrawal rate of our school is higher than the national average for withdrawals.

Statistics for the school for 1947 and 1948 follow:

	1947	1948
Students in the School of Nursing:		
Charity Hospital Students.....	488	451
Affiliating Students.....	105	81
Postgraduate and Supplementary Students.....	7	10
Anesthesia Students.....	39	38
Students in five year program.....	23	24
Senior Cadets from other hospitals.....	14	9

**Schools Affiliated with Charity Hospital School of Nursing:**

Schools located in State.....	8	7
Schools located out of State.....	14	22
Schools sending Senior Cadets.....	3	4

**Admissions and Withdrawals:**

Admissions to School of Nursing.....	368	207
Withdrawals from School of Nursing.....	116	143

**Courses Completed:**

Students Graduated.....	172	101
Anesthesia Students receiving Certificates.....	43	52
Students receiving degrees from L. S. U. Department of Nursing Education.....	6	11

**ACKNOWLEDGMENTS**

We appreciate the courtesy and interest which we have been accorded by the members of the Board and Dr. Bernhard.

Very sincerely yours,

SISTER HENRIETTA, R. N.,  
Director, School of Nursing  
and Nursing Service

## ANNUAL REPORT OF THE DIETARY DEPARTMENT

**July 1, 1947-June 30, 1948**

To the Board of Administrators and Doctor Robert Bernhard,  
Director, Charity Hospital of Louisiana at New Orleans

Gentlemen:

The Annual Report of the Dietary Department for the fiscal year beginning July 1, 1947 and ending June 30, 1948, is herewith respectfully submitted:

### **ACTIVITIES AND ACCOMPLISHMENTS**

Nine students were enrolled in the fourth class of Dietetic Interns July 1, 1947, making a total of 13 students. Interns are admitted July 1, September 1, and February 1. Twelve interns completed the course, one withdrawing because of home responsibilities.

The Executive Board of the American Dietetic Association re-approved the Charity Hospital Internship after an inspection made by Miss Lucille M. Refshauge, Educational Director of the Association.

The Board of Administrators of Charity Hospital granted the dietetic interns a monthly stipend of \$10.00 in recognition of the service they render the hospital and also to attract desirable applicants of high scholastic standing and personal qualifications for future classes. The value of this was seen in the caliber of applicants received for the 1948 classes.

A new Hobart Model JM Dishwashing Machine was purchased and installed in the Main Kitchen. This purchase made possible the replacement of a machine of wartime construction which was inadequate for carrying the required load. We are grateful for its installation as it has proven its worth by its performance.

The purchase of two outdoor model heated food trucks permitted replacement of two outmoded, unheated ones, and this modern equipment has enabled us to do a more satisfactory job of sending palatable food to the Convalescent Home and Contagious Unit.

Construction work on the new Formula Room on the 10th Floor is almost completed and it will be ready for occupancy shortly. This new unit is excellently equipped and will no doubt be the finest in the country.

We are indeed grateful for the much needed increases in salaries for many workers in December and January, which enabled us to retain the services of many valuable employees.

### **STATISTICS**

This year 25,440 patients were seen in the Nutrition Clinic. This was an increase of 3,511 over the preceding fiscal year.

The patient meals served during the year shows a marked decrease due to the fact that wards were closed during the year; while personnel meals show an increase, because of larger student nurse enrollment, as well as a larger resident and intern crops.

Comparative figures follow:

	1946-1947	1947-1948
Personnel Meals .....	1,461,629	1,577,696
Patient Meals .....	2,212,920	1,881,147
Meals delivered to Delgado Building.....	112,605	120,492
 TOTAL MEALS .....	 3,741,221	 3,559,335
Special Diets Served .....	222,434	572,456
Infant Formulae Prepared .....	45,031	56,461

Respectfully submitted,

SISTER EUPHEMIA, Director  
Dietary Department

**HOUSEKEEPING DEPARTMENT**

September 3, 1948

To the Board of Directors and Doctor Robert Bernhard,  
Director of Charity Hospital of Louisiana at New Orleans,

Gentlemen:

The annual report of the Housekeeping Department for the fiscal year beginning July 1, 1947 and ending June 30, 1948 is herewith submitted.

No significant changes have occurred in the activities of this division during the past year. The efforts of this department were chiefly directed toward improving standards of cleanliness and supervision. A gradual return to normal conditions has been noted in the monthly turnover of personnel. During the 1947 period, the turnover of personnel ranged from 6% to 13% per month, while in the 1948 period it dropped to 3½% to 6½% per month.

Salvage material to the amount of \$4,311.78 was sold from the salvage division to salvage dealers.

The Orkin Exterminating Company has satisfactorily performed their services of controlling insects and rodents according to contract. Satisfactory service has also been given by the National Window Cleaning Company in the cleaning of windows in all hospital buildings every two months as per contract.

**LINEN AND SEWING SECTION**

Two linen inventories were taken in the nursing sections of the Main Building and all outlying buildings and Dietary Division the past year; one on October 15, 1947, and another on March 1, 1948.

Respectfully submitted,

SISTER CLARISSE, Director  
Housekeeping Department

**MEDICAL SOCIAL SERVICE DEPARTMENT****Miss Louise Meyer, Director**

September 2, 1948

Dr. Robert Bernhard, Director  
Charity Hospital of Louisiana  
New Orleans, Louisiana

Dear Dr. Bernhard:

The following is the report of the Social Service Department for the fiscal year 7/1/47 through 6/30/48.

The function of the department is to provide case work services to patients under treatment in Charity Hospital wards, clinics, accident and admitting departments, to determine eligibility for free medical care, to participate in the teaching program of social work students, medical students, student nurses and dietitians, to participate in community activities designed to alleviate some of the lacks of the community which affect the functioning of the hospital, to interpret the function of the hospital to the community, and to participate in research.

**Case Work Services**

Turnover in staff and lack of staff again affected the work of the department. Another affecting factor was the opening of the Musser-Gordon Hospital with beds for patients with advanced tuberculosis which had to be covered plus the fact that the full impact of the opening of the white clinics was not felt until this fiscal year. Furthermore the demand for service on certain services such as psychiatry increased and there were requests for increased participation in the teaching program, especially in relation to the two medical schools.

One of the three needs described in last year's report, a worker for the premature unit, another for the convalescent home and for trained psychiatric social work staff was met. Because funds from United States Children's Bureau through the Department of Health were made available, it was possible to have one worker assigned especially to the premature unit. This position which had supervisory status and was classified as Medical Social Worker III entailed responsibility for case work services on the premature unit and for supervision of the workers assigned to the pediatrics service. This fortunately resulted in not only having a special worker available for the premature unit but also in making available an additional member of the supervisory staff.

Although personnel for the psychiatric unit was available it was never possible to employ psychiatric social workers because funds from the National Mental Health Act were not received.

Therefore the need for psychiatric social work staff remained as did the need for a worker assigned especially to the convalescent home.

During the year there was no major change in the service assignment. It remained the same as last year with the service assignments designed to give the workers a definite section of the hospital for which they are responsible, and at the same time to facilitate their work by having them handle one medical specialty such as Medicine, Surgery, etc. and, by being responsible for both wards and clinics, to enable them to work with the same doctors and patients throughout the patient's period of treatment on the ward and in the clinic.

During the year the services were assigned as follows:

1 worker	Obstetrics & Gynecology	Tulane, LSU and Ind. Wards & Clinics—White and Colored
2 workers	Eye and ENT	Tulane, LSU and Ind. Wards & Clinics—White and Colored
2 workers	Orthopedics	Tulane, LSU and Ind. Wards & Clinics—White and Colored
1 worker	Pediatrics	Tulane, LSU and Ind. Wards & Clinics—White and Colored
2 workers	Tuberculosis	Tulane, LSU and Ind. Wards & Clinics—White and Colored
2 workers (1 worker sponsored by Cancer Society)	Tumor	Tulane, LSU and Ind. Wards & Clinics—White and Colored
2 workers	Surgery Dermatology Dental Vascular Genito-Urinary	Tulane, LSU and Ind. Wards & Clinics—White and Colored
1 worker (Part Time)	Metabolic	Clinics—White and Colored
2 workers	Neurological	Tulane, LSU and Ind. Wards & Clinics—White and Colored
3 workers	Medicine Cardiac Allergy	Tulane, LSU and Ind. Wards & Clinics—White and Colored
2 workers	Admitting Department Accident Department	White and Colored
Supervisor	Orthopedics	Colored Ind. Wards and Clinics
Supervisor	Premature Unit	Tulane, LSU and Ind. White and Colored
Director	Intake Correspondence	

However, with the assignment of a worker with supervisory status to the premature unit, the supervisory assignments were changed.

#### Staff

During the year staff turnover continued high. For the year ending June, 1948 there were 29 resignations (2 of which were transfers) and 30 replacements and 5 requests for leave as compared with 26 resignations, 26 replacements and 2 requests for leave in 1947; and 24 resignations, 19 replacements and 2 requests for leave in 1946. During 1947-1948 there were 18 resignations and 4 requests for leave without pay in the professional staff plus 9 resignations in the non-professional staff while there were 19 replacements in the professional staff and 11 in the non-professional staff.

The Cancer Follow-Up Program which began operating in October, 1947 was designed to maintain contact with all patients treated for cancer at Charity Hospital until their death. Files included an alphabetical registry of all cancer patients plus a diagnostic file available for research purposes. The program was to be tied in with the Social Service Department in that all patients with cancer who deserted or refused treatment were to be referred to the workers on the Tumor Service while all patients who were thought to have emotional factors preventing return were also to be referred to Social Service.

#### Case Load

Although the case load fluctuated as is shown in the table following, there was a marked increase in the total number of cases handled. As has been pointed out in previous reports the case count varies in relation to the amount of sick leave taken, the number of workers on annual leave and the number of vacancies. Furthermore, because of the pressure of work much of the service given is unavoidably not counted statistically. The increase this year of 7,794 is due mainly, it is believed, to the opening of the white clinics. Even though the clinics were reopened prior to the beginning of this fiscal year, it is thought that the full effect is just being experienced. The case load is 3,973 less than it was in 1942 when both clinics were in operation and all of the floors were open.

The following table shows the case load for the fiscal year:

July, 1947 .....	3565
August, 1947 .....	3693
September, 1947 .....	3477
October, 1947 .....	3148
November, 1947 .....	4151
December, 1947 .....	3921
January, 1948 .....	3812
February, 1948 .....	3736
March, 1948 .....	3732
April, 1948 .....	4615
May, 1948 .....	4516
June, 1948 .....	4078
<b>TOTAL .....</b>	<b>46,444</b>

Year	Number of Cases	Increase Over Preceding Year
1948 .....	46,444	7,794
1947 .....	38,650	5,034
1946 .....	33,616	907
1945 .....	32,709	6,343
1944 .....	26,366	3,660 (Decrease)
1943 .....	30,026	20,391 (Decrease)
1942 .....	50,417	

The following shows the number of cases served by the workers on the various services:

Year	Service	No. of Patients	No. of Workers
1947-48.....	Allergy and Cardiac, Medicine.....	9,695	3
1947-48.....	Eye and ENT.....	3,377	2
1947-48.....	Gynecology and Genito-Urinary.....	1,558	1
1947-48.....	Post-Polio <sup>1</sup> .....	168	1
1947-48.....	Obstetrics.....	1,595	1

1947-48.....	Intake Correspondence <sup>6</sup> .....	2,172	1

<sup>1</sup>Handled by worker on L. S. U. Orthopedics Service.

<sup>2</sup>Handled by workers on Tuberculosis Service.

<sup>3</sup>Handled by workers in Admitting Department.

<sup>4</sup>Part-Time Worker.

<sup>5</sup>Handled by one of the supervisors.

<sup>6</sup>Handled by Director.

Contacts with patients or members of their family during the year amounted to 72,167, an increase of 19,497 over last year and an increase of over twice as many contacts over the preceding fiscal year. Even so this figure does not show the total number of contacts for the volume of work makes it impossible to keep count of all contacts.

July, 1947 .....	5771
August, 1947 .....	5090
September, 1947 .....	4418
October, 1947 .....	4881

March, 1948 .....	7803
April, 1948 .....	7305
May, 1948 .....	7480
June, 1948 .....	6482
 TOTAL .....	 72,167

Referrals to social agencies in the community such as the Department of Public Welfare, Vocational Rehabilitation, Crippled Children's Division, etc. totalled 1854, an increase of 1025 over last year.

July, 1947 .....	152
August, 1947 .....	99
September, 1947 .....	70
October, 1947 .....	140
November, 1947 .....	125
December, 1947 .....	155
January, 1948 .....	115
February, 1948 .....	134
March, 1948 .....	112
April, 1948 .....	293
May, 1948 .....	213
June, 1948 .....	246
 TOTAL .....	 1854

In April in an attempt to give a picture of the work of the department the statistics were changed to include the number of unmarried mothers to whom service was given, the number of patients placed in institutions, the number placed in nursing homes, the number for whom nursing care in their own homes was arranged. At the end of the next fiscal year this more detailed information will be available.

#### Social Admitting Program

The following two tables show the work of the Hospital Intake Unit for the fiscal year. Included are both the day and evening shifts.

Month	Number of Patients Interviewed	Number of Patients Ineligible	Per Cent Ineligible
July, 1947.....	1,656	543	33
August, 1947.....	2,746	576	20
September, 1947.....	2,092	486	23
October, 1947.....	2,344	495	21
November, 1947.....	1,788	542	30
December, 1947.....	1,625	449	27
January, 1948.....	1,939	536	27
February, 1948.....	1,866	462	24
March, 1948.....	1,597	389	24
April, 1948.....	2,216	509	23
May, 1948.....	1,621	461	28
June, 1948.....	1,345	410	30
TOTAL.....	22,835	5,858	26

	Number of Patients Interviewed	Number of Patients Ineligible	Per Cent Ineligible
Wards.....	2,846	391	14
Clinics.....	4,919	1,794	36
Accident Rooms.....	15,070	3,673	24
TOTAL.....	22,835	5,858	26

The two tables above show the number of patients interviewed and the number of patients ineligible as well as the percentage of ineligible patients based on the number of patients interviewed in each division of the hospital. The following table shows the number of patients ineligible and the per cent ineligible in relation to the number of patients treated in each division of the hospital.

	Number of Patients Treated	Number of Patients Interviewed	Number of Patients Ineligible	Per Cent Ineligible
Wards.....	53,583	2,846	391	.007
Clinics.....	34,887	4,919	1,794	.05
Accident Department.....	80,170	15,070	3,673	.05
TOTAL.....	168,640	22,835	5,858	.03

As compared to 1946-1947 the number of interviews increased this year by 3,787 but the percentage of ineligible patients in relation to patients interviewed has remained almost the same: 27% last fiscal year, 26% this fiscal year. The percentage of eligibles in relation to the patients under treatment has remained constant: 3% in both fiscal years.

MONTH	NUMBER OF PATIENTS INTERVIEWED			NUMBER OF INELIGIBLE PATIENTS					% IN- ELIGIBLE	
	Race			Non- Resident	Compens- ation and Liability	Able to Pay	Eligible Elsewhere	Total		
	White	Colored	Total							
July 28, 1947 thru July 31, 1947...	31	0	31	0	2	12	17	31	55	
August, 1947.....	426	1	427	10	18	150	190	368	45	
September, 1947.....	323	85	408	12	24	110	157	303	36	
October, 1947.....	271	137	408	3	19	139	6	167	39	
November, 1947.....	293	120	413	16	70	102	10	198	48	
December, 1947.....	182	76	258	14	32	57	5	108	40	
January, 1948.....	315	161	476	21	34	95	8	158	33	
February, 1948.....	336	83	419	23	30	100	13	166	39	
March, 1948.....	181	53	234	2	21	56	8	90	38	
April, 1948.....	330	56	386	1	28	114	9	152	39	
May, 1948.....	152	5	157	3	7	53	3	66	43	
June, 1948.....	360	65	425	8	31	116	1	156	36	
TOTAL.....	3,200	842	4,042	116	316	1,104	427	1,963	49	

The following table shows the work of the Hospital Intake Unit for the six years the programs have been operating:

Year	Number of Patients Treated	Number of Patients Interviewed	Number of Patients Ineligible	Per Cent Ineligible	
				Patients Treated	Patients Interviewed
1942-43.....	137,157	19,048	2,417	2	12
1943-44.....	150,685	17,388	4,932	3	28
1944-45.....	159,409	16,345	6,334	3½	38
1945-46.....	182,382	17,285	4,646	2½	27
1946-47.....	164,819	19,048	5,207	3	27
1947-48.....	168,640	22,835	5,858	3	26

During the year two special studies or "spot checks" were made. On 8/4/47 interviewers were placed in the Surgery Clinics for a two weeks period to interview all patients (old and new) to determine eligibility. The study was undertaken as it was believed by some of the doctors that the incidence of abuse in those particular clinics was high.

Of the 1163 patients interviewed a total of 46 or 4% were found ineligible and referred elsewhere for treatment. Twenty-five of the latter number had been referred from the Accident Room. It would, therefore, appear advisable to locate these ineligibles in the Accident Department before referral to clinic which would necessitate the placement of an additional interviewer in the Accident Room. Because of the already limited staff a shift of assignment of the present personnel was not considered feasible.

The second study was a check of residence on ward and clinic patients. The study was conducted as there was a feeling among the administrative personnel that residents of other states were receiving treatment by giving false information about place of residence. The ward and clinic studies were carried out at different periods as the tremendous number of patients admitted to each department daily made it impossible to check residence for all patients simultaneously.

The ward study took place from 6/1/48 through 6/14/48; the clinic (new patients) from 6/21/48 through 7/5/48.

A total of 2089 ward admissions were received—1570 of which were proved residents; 17 admittedly non-residents were treated as emergencies; 10 were found to be non-residents having given false information on admission.

During the clinic study 1536 patients were interviewed and form letters sent to references obtained. Eighteen patients admitted non-residence and were referred elsewhere for treatment; 849 were verified as residents; 669 were not verified (as the forms were returned unclaimed or references could not identify patient). Of the forms completed, no patient was found to falsify information.

A total of 3620 patients were included in the study, 2419 of which were verified as Louisiana residents, 35 admittedly non-residents, 10 proved to be non-residents (contrary to their statement); 1156 were unverified. It can be concluded from this sample that the number of non-residents receiving medical treatment by giving false information as to place of residence is negligible. The following table shows the total results of both studies.

	White	Colored	Total
Ward Patients Admitted.....	803	1,281	2,084

No Answers.....	52	104	156

## TEACHING PROGRAM

### Tulane School of Social Work

Thirty-seven students were placed in the department during the summer, fall and spring semesters: 20 in medical social work and 17 in psychiatric social work. This was a smaller number of students than the number placed in the department during each of the two preceding years.

### LSU School of Social Welfare

Besides the field trip through the hospital and Social Service Department which is planned each year for the LSU students, cases were made available for teaching material. As has been done in the past case records, illustrating the emotional aspects of illness and showing the patient's reaction to his illness, were copied by LSU with names disguised and used for discussion and lecture purposes.

Preliminary discussion of the agreement to be entered into when LSU develops its two year program was continued and it was agreed that supervision could be provided by the department for two or three students in the spring semester, provided LSU was ready to go ahead with its plans by that time.

### Tulane and LSU Medical Schools

Participation in the teaching of medical students was continued in conjunction with both medical schools as was done last year but there were increased requests for service.

The LSU Department of Psychiatry asked that the department outline a program for the Junior and Senior students assigned to psychiatry to include the function of the Social Service Department, resources in the community, the content of a social history and techniques of interviewing. Discussions in relation to the content of a social history and techniques of interviewing were handled by the supervisor and workers on psychiatry while the rest of the supervisory staff rotated to give the talks on the function of the department and community resources. A third talk in this latter series, a case illustration showing the work of the department, was given by some of the workers taking turns.

### Charity Hospital School of Nursing

One supervisor continued to give courses in sociology as part of the curriculum of the School of Nursing, while on the wards the workers talked about the social aspects of the specific illness to each new group of student nurses as they were rotated to the different services throughout the hospital.

### Charity Hospital School of Dietetics

Various members of the staff continued to talk on the functions of Social Service to each new group of student dietitians.

### VOLUNTEERS

The expansion of the volunteer service in the hospital in general has continued under the director of the Coordinator of Volunteers to the advantage of the Social Service Department. Recruitments and orientation have been carried out in an organized and effective manner. An elaborate six weeks' orientation course was conducted in February and March, 1948 by the planning committee of the Volunteer Advisory Committee, on which two members of the staff served. The Social Service staff also participated in one of the talks and in conducting several of the tours.

Besides the general orientation program, emphasis has been placed on the more complete and thorough training of the volunteer in her specific job in Social Service in order that she might feel more security in her placement and work more effectively and efficiently to the advantage of the department.

During the year in Social Service 45 volunteers have served 2805½ hours. Thirteen aides served regularly for six months or longer. They were used as follows: in the Main Social Service office at the intake desk and in the file room, answering the telephone, filing and typing; in the Hospital Intake Unit, filing, typing bill recommendations, etc.; in the Admitting Room Social Service office doing intake, answering the telephone and typing; as aides on Eye, Metabolic, Tumor Services and in the Cancer Follow-Up Program.

### ACCOMPLISHMENTS

Accomplishments included securing the worker for the premature unit and beginning to work on the Social Service program in relation to prematures; setting up and developing the Cancer Follow-Up Program, and having approval to set up four psychiatric social work positions while one trained psychiatric social worker was employed. The lectures in psychopathology were of great benefit to the staff; the installation of fluorescent lighting in part of the department meant better working conditions and less physical strain.

The change in the statistical procedure should mean that by next year a clearer picture will be available of the work done and the way in which time necessary to do the work is spent.

Another accomplishment was the servicing of more cases, over 7,000 more than last year while the increasing requests for service and participation in the teaching program of the two medical schools and the two schools of social work were particularly gratifying and stimulating.

Respectfully submitted,

LOUISE MEYER, Director  
Social Service Department

**PATHOLOGY DEPARTMENT**

August 27, 1948

Dr. Robert Bernhard, Director  
Charity Hospital of Louisiana  
New Orleans 12, La.

Dear Doctor Bernhard:

Enclosed is the annual report of the Department of Pathology of Charity Hospital at New Orleans for the fiscal year July 1, 1947 to June 30, 1948:

**Contents**

1. Table of Organization of Services
2. Table of Organization of Personnel
3. Comparative graph showing increase in volume of work for the years 1945-46, 1946-47 and 1947-48
4. Personnel as of June 30, 1948
5. Numerical report of the Diagnostic Laboratories
6. Report of Division of Surgical Pathology
7. Report of Division of Pathologic Anatomy
8. Report of School of Medical Technology
9. Report of the Pasteur Institute
10. Report of Morgue
11. Incidental Activities

Respectfully submitted,

EMMA S. MOSS, M.D., Director  
Department of Pathology

**PERSONNEL AS OF JUNE 30, 1948****Medical:**

Emma S. Moss, M.D., F.A.S.C.P., F.A.C.P., Director, certified American Board of Pathology: Pathologic Anatomy and Clinical Pathology  
George F. Fasting, M.D., Pathologist  
Charles L. Blumstein, M.D., F.A.M.A., F.A.S.C.P., certified American Board of Pathology: Pathologic Anatomy and Clinical Pathology. (Resigned July 15, 1947)  
George Mahon, M.D., F.A.M.A., F.A.S.C.P., certified American Board of Pathology: Pathologic Anatomy and Clinical Pathology. (Resigned November 10, 1947)  
Albert L. McQuown, M.D., Resident in Pathology  
Cecil L. Sinclair, M.D., Resident in Pathology  
Eugene Wicker, M.D., Resident in Pathology  
Thomas Potter, M.D., Resident in Pathology  
Raid Chappell, M.D., Resident in Pathology  
Evelyn Nix, M.D., Resident in Pathology  
Stephen Sternberg, M.D., Resident in Pathology  
Philip Cenac, M.D., Resident in Pathology

Charity Hospital School of Medical Technology is approved by the Council on Medical Education of the American Medical Association and the Registry of Medical Technologists of the American Society of Clinical Pathologists.

The course extends over a period of twelve months. Applicants are accepted who hold a Bachelor's degree from a recognized college or university, with major in bacteriology, chemistry, medical technology, parasitology or acceptable biological sciences with minors in correlated subjects, and are approved by the Registry of Medical Technologists. Prior to consideration a transcript of the applicant's academic credits must be submitted to the Registry of Medical Technologists of the American Society of Clinical Pathology for evaluation and approval.

Entrance dates are the first of any month. There is no fee for the course. Room and board without charge are offered in Charity Hospital. Each student must own Kolmer and Boerner's "Approved Laboratory Technic," 4th Edition.

During the period of internship there is a rotation through the various divisions of the laboratory including Serology, Hematology, Parasitology, Biochemistry, Bacteriology (contagious, tuberculosis, post mortem and general), Histopathology, Basal Metabolic Laboratory and Out-Patient Clinic Laboratories.

### INCIDENTAL ACTIVITIES

The American Society of Clinical Pathologists awarded the Silver Medalion for Excellence to Dr. Moss and Dr. McQuown for a Scientific exhibit on "The Etiologic Agents of Mycotic Infections" which was presented at the annual meeting in October at Chicago.

An exhibit on "Fungous Infections" was also presented at the meeting of the Southern Medical Association at Baltimore in November.

Drs. Moss and McQuown have completed work on an "ATLAS OF MEDICAL MYCOLOGY" to be published this fall by the Williams and Wilkins Co., Baltimore.

Dr. Marion Hood, Microbiologist, was awarded an honorary Doctor of Science degree by Carroll College, Waukesha, Wisconsin, at recent Commencement exercises.

**REPORT OF HEART STATION  
ELECTROCARDIOGRAPHIC LABORATORY  
CHARITY HOSPITAL OF LOUISIANA**

New Orleans, Louisiana  
August 17, 1948

Dr. Robert Bernhard  
Director, Charity Hospital  
New Orleans, Louisiana

Dear Dr. Bernhard:

The report given below shows the work done by the Heart Station from July 1, 1947 through June 30, 1948. The figures refer to the number of electrocardiograms in each respective month. Many sound tracings with electrocardiograms and fluoroscopic examinations of the heart were made also in the current year but the breakdown for months is not available although the data was placed in the patients' records. Routine electrocardiograms during the past year have consisted of Leads I, II, III, and precordial leads V<sub>1</sub> through V<sub>6</sub>. The number of electrocardiograms taken in the fiscal year approximate an increase of 2,000 over the number recorded for the previous year.

Cardiac catheterization has been performed on numerous patients this year. This procedure, together with angio-cardiograms, has enabled us to evaluate more fully patients with heart disease who have been admitted to the hospital.

A program of research has also been instituted and resulting publications have been submitted to the various medical journals.

**ANESTHESIA**

August 21, 1948

Dr. Robert Bernhard, Director  
Charity Hospital  
New Orleans, La.

Dear Dr. Bernhard:

The activities of the Anesthesia Department during the past year differed little from previous years. The following is a summary of the types of anesthesia administered from July 1, 1947 to June 30, 1948:

Ether .....	5,582
Cyclopropane .....	2,312
Ethylene .....	2,550
Nitrous Oxide .....	173
Pentothal .....	80
Spinal .....	2,906
Local .....	3,152
Other .....	146
	16,901

The activities of the Blood Bank have differed little from previous years. During the year ended June 30, 1948, 17,067 units of whole blood were released for transfusions and 19,771 units were collected in the Donor Station.

Sincerely yours,

JOHN ADRIANI, M.D., Director  
Department of Anesthesia

**ANNUAL REPORT  
CHEST X-RAY UNIT  
NEW ORLEANS CHARITY HOSPITAL**

**July 1, 1947 to June 30, 1948**

This annual report for the year July, 1947 through June, 1948 represents the third full year that the Chest X-Ray Unit at the New Orleans Charity Hospital has been in operation. And it is with a great deal of pleasure to report that during this year a total of 59,332 small films was taken. This total compares most favorably with the total of 24,426 small films taken in 1946-1947 and 30,768 small films taken in 1945-1946.

The readings on these films are classified as follows:

Shadows very strongly suggesting tuberculosis...	55
Shadows suspicious of tuberculosis.....	2,317
Shadows suggesting pathology other than tuberculosis .....	3,391
Negative .....	53,569

Analysis of the above figures, representing the breakdown of the total by "X-ray Impression," shows that 2,372 persons or 4% of those X-rayed had findings on a small film very strongly suggesting or suspicious of tuberculosis. This same figure of 4% has appeared in each year that this unit has been operating.

It is believed that the yearly total of persons X-rayed by the photo-fluorographic process in the New Orleans Charity Hospital is unique. To my knowledge there is no other hospital in this country which can even approach this in number of patients examined.

The Chest X-Ray Unit has continued to function under the direct supervision of the Tuberculosis Control Section, Louisiana State Health Department and all expenses and salaries borne by it.

Respectfully submitted,

TERRELL O. CARVER, M. D.,  
Acting Chief  
Tuberculosis Control Section  
Division of Preventive Medicine

## REPORT POLIOMYELITIS CENTER

**July, 1947 to June 30, 1948**

From June 30, 1947 to June 30, 1948 seventy-five patients were admitted to the Poliomyelitis Center, Charity Hospital. Out of this number, fifty-three were diagnosed and treated for poliomyelitis. For the entire year, there were only three patients who had bulbar poliomyelitis. One patient died of bulbar poliomyelitis.

The Poliomyelitis Center has an 84 bed capacity. It occupies three floors at Charity Hospital, two floors being used as wards and one floor for the Physical Therapy Department and recreation room combined.

The patients are under the care of the orthopedic surgeons and pediatricians from the Tulane, Louisiana State University and Independent Services at Charity Hospital.

Four regular duty nurses and one nurse supervisor are responsible for the nursing care of the patients. There is one physical therapist who is responsible for the physical therapy treatments as recommended by the orthopedists.

Children at the Poliomyelitis Center receive instruction from a teacher employed by the Orleans Parish School Board. This makes it possible for patients to keep up with their school work during the time they are in the hospital.

Moving pictures are shown twice weekly. The Parent-Teacher Association of the different schools in New Orleans take turns in planned recreation of the patients at the Center.

The Poliomyelitis Center is partly financed by the National Foundation for Infantile Paralysis, Inc.

JOSEPHINE A. McDONALD, R. N.  
Supervisor

## LUNG STATION

August 12, 1948

Dr. Robert Bernhard, Director  
Charity Hospital  
New Orleans, Louisiana

Dear Dr. Bernhard:

During the fiscal year of July 1, 1947 to June 30, 1948, the Lung Station increased its services both quantitatively and qualitatively. The number of studies carried out was increased more than 100% over the previous year. Investigational work led to the publication of three articles, and others are in preparation based on the work of the year. The Station has extended its services to include bronchial lavage for the isolation of fungi, *Mycobacterium tuberculosis*, and neoplastic cells. In addition the Station has cooperated in the medical treatment of pulmonary abscess by the direct instillation of antibiotics into the connecting bronchus. The work of the Lung Station is tabulated below:

Spirography and lung volume studies.....	183
Bronchspirometry .....	66
Metabolic studies .....	87
Bronchograms .....	7
Bronchial lavage .....	12
Intrabronchial instillation of antibiotics.....	29
Miscellaneous .....	3
 TOTAL .....	 387

Respectfully submitted,

JOHN H. SEABURY, M.D.  
Director, Lung Station

**ANNUAL REPORT MEDICAL RECORDS LIBRARY**

Dr. Robert Bernhard, Director  
Charity Hospital of Louisiana  
New Orleans, Louisiana

Dear Dr. Bernhard:

The annual report of the Record Library for the fiscal year 1947-1948 is herewith submitted.

The project for setting up a diagnostic file on all hospital admissions and discharges by the International Business Machines for the period of 1942-1945 is nearing completion. This consists of approximately 300,000 cards which have been punched, and are now being set up diagnostically according to the Standard Nomenclature of Diseases and Operations. This will furnish a complete Key Punch diagnostic card file from 1942 through the current year. These files are in great demand by the professional staff for research and statistical purposes.

The Research Department of the Library reports the following:

	1947-48	1946-47
No. of Diagnoses Requested .....	213	198
No. of Articles published in Scientific Journals from this work.....	161	137
No. of Boards of American College of Surgeons .....	52	61
No. of Charts pulled for research.....	270,000	252,000
No. of Letters sent on Medical Information .....	3,490	3,214

Respectfully submitted,

EDDIE V. COOKSEY, R.R.L.  
Record Librarian

Books and magazines for the library

50 boxes of picture puzzles for the Children's ward

The Magnolia Branch of Louisiana Sunshine Society gave a Christmas party to 200 patients of Dibert Hospital. Gifts, refreshments and entertainment were provided. The Magnolia Branch has planned to give coffee to the 2nd and 4th floors of Dibert each week. Since starting this program on May 25th, they have provided 12 lbs. of coffee and 2 lbs. of sugar.

**ANNUAL REPORT OF THE  
CLASSES FOR CONVALESCENT CHILDREN**

**July 1, 1947 to June 30, 1948**

Selma L. Klein, B.A., M.A., Instructor, Class for White Convalescents  
 Emma Mae Turner, B.A., M.A., Instructor, Class for Crippled Children—  
 Polio Unit

Louella Cavalier, Instructor, Class for Colored Convalescents

Dr. Robert Bernhard, Director, Charity Hospital and  
 Board of Administrators of the Charity Hospital  
 New Orleans, Louisiana

Dear Sirs:

I wish to submit the Annual Report of the Classes for Convalescent Children, sponsored by the Orleans Parish School Board.

**ENROLLMENT**

**Class for White Convalescents**

	Boys	Girls	Total
1. Total enrolled .....	324	286	610
2. Daily average enrollment .....	19	17	36

**Class for Crippled Children, Polio Unit**

1. Total enrolled .....	6	4	10
2. Daily average enrollment .....	6	4	10

**Class for Colored Convalescents**

1. Total enrolled .....	354	261	615
2. Daily average enrollment .....	19	17	36

**INSTRUCTION**

The instructional program, available to every child whose physical condition permits, includes not only the regular courses in academic subjects but also the arts and crafts, music, the visual techniques and all the other benefits of modern education.

Textbooks are provided by the State Department of Education and are the same as those used in the public and parochial schools of the State. Thus the loss of time due to hospitalization is cut to a minimum and the patient returns to school at approximately the level he would have attained had he not been ill.

**LIBRARY**

The flexible daily schedule provides a well balanced distribution of time both for activity and relaxation. A free reading period for browsing provides the pupil opportunity to enjoy a wide variety of interesting and well illustrated children's books.

The classroom for White Convalescents has a library of well over seven hundred books, while the Polio Unit Library offers more than two hundred books to its patients. The Class for Colored Convalescents now has library facilities which boast of more than five hundred books.

During the current year the following appropriations were made for the purchase of additional library materials.

**Class for White Convalescents**

Allotment for books from the State Dept. of Education.....	\$ 50.00
Allotment for Stereographs and Film Strips .....	38.00

**Class for Crippled Children—Polio Unit**

Allotment for books from the State Dept. of Education.....	71.54
--	-------

**Class for Colored Convalescents**

Allotment for books from the State Dept. of Education.....	102.54
Zeta Phi Beta Sorority .....	Nineteen Books
Individual book donors .....	Sixteen books

**AUDIO-VISUAL AIDS**

Recordings, stereographs, slides, still films, and motion pictures are utilized to stimulate the child's interest and bring him enriched and satisfying experiences.

Each week the Class for White Convalescents enjoys one hour of educational and recreational films. The National Foundation for Infantile Paralysis purchased a projector and provides funds for the rental of recreational films that are shown twice weekly at the Class for Crippled Children in the Polio Unit.

**PARTIES AND ENTERTAINMENTS**

Recreation through participation in social activities is encouraged as a means of helping the child forget his difficulty. Holidays, birthdays and special celebrationns are all occasions for a party. Group play and games enjoyed at this time provide opportunity for socialization. A partial list of these activities is given.

**Class for White Convalescents**

Type of Entertainment	Sponsor
Hallowe'en party .....	Mrs. J. T. Nix
Thanksgiving party .....	Grey Ladies—Am. Red. Cross
Christmas Parties	
1. Dec 16, 1947 .....	Seniors, Sacred Heart High
2. Dec. 17 .....	Grey Ladies
3. Dec. 20 .....	Mrs. Gennero, Sorority Group

Mr. Philip McCabe sponsored the following parties on both the White and Colored Children's wards.

- Dog Show
- Smoky, the Circus Horse
- Cowboy Band
- Dr. Pepper Show
- Birthday Party in August
- Christmas Party

**Polio Unit**

The Parent-Teacher's Association sponsored the entertainments given in the Polio Unit. A party was given each week by the members of one of the P.T.A. of the Public Schools in New Orleans.

Respectfully submitted,

SELMA L. KLEIN, Instructor,  
Class for Convalescents

## CHARITY HOSPITAL MEDICAL AND PATIENTS LIBRARY

July 1, 1947 to June 30, 1948

Throughout the fiscal year 1947-48, the Medical and Patients Library continued its services to the Medical Staff, and to the in-patients both white and colored, with some assistance from volunteers. It has increased the book collection, broadened individual services to both medical staff and in-patients, started to organize a library in the Breaux Building and assisted with the Dibert Library in book selection and classification as well as general library advice when desired.

Medical Books and periodicals are paid for from the Medical and Surgical Care Fund, and books selected for the patients, and popular periodicals are paid for from the allocation, Henderson Fund for Library. During the year, the library has spent \$1,558.21 for books and \$80.35 for periodicals from the Henderson Fund. It has spent \$127.80 for books from the Medical and Surgical Care Fund. The library used the last of the Sister Stanislaus Fund for Books, spending the remaining \$162.22.

The book collection now totals 2,834. There have been 876 books added since July 1, 1947. Of these, 620 were bought and 256 were gifts. The library subscribes to 66 medical journals and receives 50 as gifts. It also subscribes to 24 popular periodicals.

During the year, the attendance in the library totaled 8,450, a monthly average of 700. The Medical Staff borrowed 1,878 books and 1,082 periodicals. Circulation on the wards totaled 7,542 books and 7,263 periodicals. Inter-library loans totaled 38 from May to July 1.

Several large donations of books and hundreds of magazines have been given to the library by interested persons. A list of donors is kept on record, and letters of appreciation are sent to donors of large book collections.

ODETTE DOLHONDE, Librarian

## ANNUAL REPORT CHARITY HOSPITAL VOLUNTEER SERVICE

August 1, 1948

Dr. Robert Bernhard  
Charity Hospital of Louisiana  
New Orleans, Louisiana

Dear Dr. Bernhard:

In July, 1946 a contribution from the American Women's Voluntary Service made it possible to establish a volunteer program at Charity Hospital for the purpose of supplementing the work being done by the paid employees, to furnish recreation for patients, and to stimulate public interest in the hospital by opening new fields for volunteers.

In July, 1947 the Board of Administrators decided to incorporate the program in its budget, thus paying the salary of the Coordinator of Volunteers and allotting \$200.00 annually to defray the expenses of the Volunteer Office.

During this fiscal year many new features have been added to the service:

Volunteers are wearing, now, uniforms and emblems especially designed for them.

Awards in the form of pins have been designed and are being given to all volunteers serving a minimum of 200 hours in the hospital.

The precedent of a general meeting of all volunteers and interested members of the Community was established on October 1, 1947. The meetings are for the purpose of introducing the directors of the hospital and the Volunteer Administrative Committee, and giving them the opportunity to express their appreciation to the volunteers for their services. Also, the awards are made at the Annual Meeting to individual volunteers for outstanding service.

The first of the annual training courses for volunteers was given in the spring. Six lecture periods of 1½ hours each and tours of the hospital included the history of the hospital, its administration, rules and policies, and the functions of the various departments.

The Volunteer Administrative Committee, which serves in an advisory capacity to the Volunteer Director, elected a new membership for the year including:

Mrs. Malcolm Dinwiddie, Chairman  
Miss Mary Elizabeth Harris, Vice-Chairman  
Mrs. Milton Adler  
Miss Lucille Baker  
Mrs. Charles F. Buck, Jr.  
Mrs. Walter Burdette  
Miss Louise Chapotel  
Mrs. Jack Donaldson  
Mrs. Crawford Ellis  
Mrs. Alvin Howard  
Mrs. Herbert Kenney  
Miss Louise Meyer  
Mrs. Robert Milling  
Mrs. Jonas Rosenthal  
Mrs. Charles Stich  
Miss Susan Tew  
Sister Urban

The new projects which have been instituted this year are:

**Recreational Therapy**—Sponsored jointly by members of the New Orleans Junior Women's Club and the St. Charles Avenue Presbyterian Church, for the purpose of teaching orthopedic patients handcrafts and skills.

**A.W.V.S. Layette Room**—Sponsored by the American Women's Voluntary Service for the purpose of furnishing materials and making layettes to be given to the mothers of new-borns as they leave the hospital.

**Premature Layette Group**—Sponsored by the Highland Park Discussion Group for the purpose of furnishing materials and making layettes to be given to mothers of premature infants.

**Premature Pack Group**—Sponsored by the Metairie Sunshine Group for the purpose of making sterile receiving blankets for the Premature Station.

**Doctors' Wives' Group**—Sponsored by the wives of residents at Charity Hospital for the purpose of making receiving blankets, bandages, etc.

**Reclaimed Gauze Group**—Sponsored by the Auxiliary of the First Presbyterian Church for the purpose of making bandages from used gauze.

**Pediatrics Play School**—This project, financed by the New Orleans Chapter of the National Council of Jewish Women in answer to a request by the Pediatrics supervisor, is the most extensive one of the year. Through their contribution it was possible to obtain a highly trained director of a constructive, creative play program for all Pediatric Wards. The hospital built the nursery school rooms and the Council equipped them. Under the direction of Mrs. Walter J. Burdette, the new Play Director, volunteers are given a training course in child development, with emphasis on hospitalized children; they are assigned to specific wards; and they are supervised on the job. Mrs. Burdette, with her volunteer staff, plans all play and all programs, and makes every effort to cooperate with the medical staff by offering pre-school children and all school-age children who are unable to attend the Public School Room on that floor, and it includes nursery school activity and bedside play.

The projects of the first year which have continued to function are:

**Charity Hospital Guild**—for the purpose of making bandages.

**Cancer Gauze Society**—for the purpose of making special bandages for cancer patients.

**Junior League Publication**—children's magazine for the Pediatric Wards, used for recreational and creative purposes.

**Girl Scout Reclaimed Gauze Program**—for the purpose of making bandages from used gauze.

Though some of the volunteer work is done on the outside and cannot be evaluated in terms of hours and number of workers, the following statistics show the amount of work done with the hospital itself:

Total number of volunteers .....	428
Total number of hours .....	19,584

Total number of hours given to sections:

Admitting Room .....	21
Blood Bank .....	3287
Cancer Follow-up .....	8
Central Service .....	3361
Layette Room—A.W.V.S. ....	977
Library .....	657
Pathology .....	3
Pediatrics Play School .....	558
Pharmacy .....	542
Occupational Therapy .....	160
Physical Therapy .....	402
Reclaimed Gauze .....	2849
Recreational Therapy .....	1149
Social Service .....	2806
Wards .....	2409
Volunteer Office .....	119
X-Ray Unit .....	134
Miscellaneous .....	142

In addition to workers who are not affiliated with specific groups, the following organizations have participated in the volunteer work of this department:

American Association of University Women  
 American Red Cross Nurses' Aides  
 American Red Cross Staff Corps  
 American Red Cross Gray Ladies  
 American Society for Cancer Control  
 American Women's Voluntary Service  
 Charity Hospital Guild  
 Community Volunteer Service  
 First Presbyterian Church Group  
 Girl Scouts of America  
 Highland Park Discussion Group  
 Holy Name Convent  
 Junior League  
 Loyola Students  
 Metairie Sunshine Group  
 National Council of Catholic Women  
 National Council of Jewish Women  
 New Orleans Women's Club—Jr. Membership  
 Sacred Heart Convent  
 St. Charles Avenue Presbyterian Church  
 Y. W. C. A. Teen-Agers

Many donations, such as money, radios, books, magazines, and toys, have been made directly to the Volunteer Office for which we are deeply grateful.

I wish to express my appreciation to the Directors of the hospital, the Board of Administrators, the Sisters of Charity, and to all hospital personnel for their cooperation in the work of this department. Also, I wish to thank the Volunteer Administrative Committee and all volunteers for their service to the hospital and to the Volunteer Department.

Respectfully submitted,

POLLY AMIS, Director  
 Charity Hospital Volunteer Service
